### **REASONS FOR ALLOWANCE**

1. The previous restriction requirement was improper and is thus being withdrawn. All non-canceled claims are now pending and under consideration.

2. The following is an examiner's statement of reasons for allowance: The prior art fails to neither anticipate nor render obvious the applicants' invention. Specifically, the prior art fails to teach a ventilation system with means for balancing air flows through two channels by utilizing four temperature sensors and two ventilators and actively balancing the temperatures in both channels using an automatic controller. The prior art also fails to teach balancing the two air flows using two double acting cylinders to balance the pressure in both channels to be equal. Thus the applicants' invention is novel and non-obvious in view of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to TRAVIS RUBY whose telephone number is (571)270-5760. The examiner can normally be reached on Monday-Friday 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Frantz Jules or Cheryl Tyler can be reached on 571-272-6681 or 571-272-4834. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
